

# Cemetery Environment Pack

Thanks for purchase this product!

This is a complete set of 3d objects (more than 50 prefabs) that will allow you to create a cemetery environment in your Unity Game. Contains some beautiful and optimized hand painted low poly models that will make your game run smoothly on mobile and with a beautiful look!

The tower set contains both blue and red team textures.

Try the demo fly-through scene located inside the folder **Assets > Cemetery > Cemetery.unity**

The .fbx models, texture and materials are located inside the folder **3d > original > [model\_name] > model** and there is prefabs for easy level design on each **3d > prefabs > asset\_name** folder.
